Arlington's METCO (Metropolitan Council for Educational Opportunity) Program is a twenty-eight year old voluntary one-way, urban/suburban desegregation and integration program. The program is based on the objective of providing a dual learning experience. METCO has provided increased educational opportunity in Arlington for African-American, Asian and Latino students as well as providing a valuable integrated learning experience for white students, teachers and administrators. The Arlington METCO Program has promoted and provided a multi-cultural educational experience throughout the school system that enriches the academic and interpersonal experiences of all students.

This program began in 1966 with fifteen students and has increased participation over the years to its current level of eighty-four students townwide. METCO is funded entirely through the Commonwealth of Massachusetts, Department of Education under the Racial Imbalance Act and is the nation's oldest voluntary desegregation program.

TO THE MEMBERS OF THE CLASS OF 1995

It doesn't seem like four years have passed since your entrance into Arlington High School. And make an entrance you did. Over the summer of 1991, the class grew as students returned to the public schools after being away for a while or as students transferred into Arlington High School for a try at public school education. Also, you are the first class to go through your junior high years at one junior high, combining the class under one roof where previously it had split between Gibbs and Ottoson. You entered with a lot of enthusiasm and you have carried that spirit through your four years.

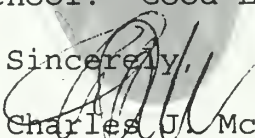

You have achieved academically to the degree that no class before you has with test scores to prove it. As a group you have taken the initiative in reaching out to your peers and to the community and in looking inward to provide focus for your lives and decisions. You have been leaders in the movement toward diversity, in the recognition, in the positive sense, of people who are different, and in educating yourselves about issues of the day and striving to provide accommodation for those who are different. You have lived through a period of heightened awareness about AIDS, sexual orientation, women's issues, and equity in all its ramifications.

At the time I write this I am looking forward to hearing of your future plans and successes since you have laid a groundwork that will result in a record that succeeding classes will be hard pressed to match.

In the midst of all these accomplishments, you have maintained a commitment to the day to day business of being pleasant young people, sophisticated but down to earth, well educated but not overbearing, competitors in all that you do but gracious in accepting your triumphs and graceful in dealing with your very few defeats and disappointments.

I will miss you but you will not be forgotten. Thank you for the pleasures you have brought to me personally and for the honors you have brought to the school. Good Luck.

Sincerely,

Charles J. McCarthy, Jr.

I was born a while ago in Boston,
and have been alive ever since. I'm
going to die sometime, and when I
do, I bet it will be with a smile on my
face, because I'll know something
nobody else will know, who I am.
Seeing as this is hardly enough space
for me to explain myself, I won't
bother. I really don't know why, but
I'm not a people person. You still

TEACHERS' FAREWELLS

For very obvious reasons, this was the class that I never wanted to graduate. 1995 seemed so very far away, and now it is here. Every class has its own personality. The class of 1995 has it all! You have a very bright class, but also a class that shows a strong sense of camaraderie. I know so many of you, and many of you I have known well since you were just little guys. It makes me sad to send you off, knowing that I won't see you all every day, but it is with a profound sense of pride that I see you graduate because you have grown up to be such fine young men and women. Always keep a sense of humor, through the good times and the not so good times. And never, never forget us or your school . . . AHS.

-Nonci Ottwein

MAKING A DIFFERENCE (anonymous)

As the old man walked the beach at dawn, he noticed a young man ahead of him picking up starfish and flinging them into the sea. Finally, catching up to the youth, he asked him why he was doing this. The answer was that the stranded starfish would die if left in the morning sun. "But the beach goes on for miles and there are millions of starfish," countered the other. "How can your effort make any difference?" The young man looked at the starfish in his hand and threw him safely in the waves. "It makes a difference to this one," he said.

As Ralph Waldo Emerson once said, "Never lose an opportunity of seeing anything that is beautiful . . ." The Class of 1995 has enriched my life with your "beauty" and friendships. My wish for all of you is that whatever special challenges you face in life, may new adventures bring you only fulfillment, delight and beauty.
